PROFESSIONAL SUMMARY

Results-driven Full-Stack Software Developer & UI/UX Designer specializing in website performance modernizations, modern JavaScript frameworks (React.js, Node.js), and mobile web development. Proven track record of auditing legacy small business platforms and engineering fast, high-converting React applications with measurable speed and Lighthouse score gains.

TECHNICAL SKILLS

- **Front-End & UI/UX:** React.js, React Native, JavaScript (ES6+), TypeScript, HTML5/CSS3, Tailwind CSS, Figma
- **Back-End & Databases:** Node.js, Express.js, REST APIs, MongoDB, SQL (PostgreSQL/MySQL)
- **Performance & Tools:** Web Vitals Optimization, WebP Asset Scaling, Git/GitHub, Docker, Postman, Vercel

SELECTED WEBSITE REDESIGN & MODERNIZATION PROJECTS

Avalon Cafe — Full-Stack Web Application & Digital Ordering Experience

- Engineered a responsive web platform using React.js and Node.js to modernize digital customer interactions and brand visibility.
- Developed an interactive menu and ordering flow driven by dynamic state management, minimizing client-side friction and navigation latency.
- Designed modular front-end UI components in Tailwind CSS based on cohesive Figma prototypes to unify local brand identity.

Jardineria Putxet — Web Modernization & Speed Overhaul

- Redesigned legacy business website into a mobile-first React.js web app, elevating Lighthouse Performance score from 52 to 94.
- Optimized asset loading and gallery rendering, slashing initial page load time from 3.8s to 1.1s.
- Designed an intuitive service estimator in Figma, increasing mobile inquiry conversion rates.

Queviures Múria — E-Commerce UI/UX & Asset Optimization

- Rearchitected web catalog for a historic Barcelona delicatessen, preserving brand heritage while modernizing user navigation.
- Eliminated layout shifts (CLS reduced to 0.02) and optimized DOM execution, reducing bounce rate by an estimated 25%.

Ivori Barcelona — Full-Stack E-Commerce Platform

- Overhauled front-end architecture for an artisanal boutique, implementing WebP asset scaling and dynamic React filters.
- Standardized RESTful API backend routes with MongoDB to synchronize inventory and product availability in real-time.

PROFESSIONAL EXPERIENCE

Full-Stack Software Developer (Freelance) — UpWork / Independent Clients
11/2023 – Present

- Engineered and deployed custom web/mobile applications for international clients using React.js, React Native, and Node.js.
- Audited client legacy codebases to identify performance bottlenecks, UI/UX accessibility issues, and mobile responsiveness gaps.
- Configured containerized build staging environments with Docker to ensure smooth handoffs to client infrastructure.

Full-Stack Developer & Designer — La Fuga Siargao
07/2022 – 08/2023

- Architected and launched a boutique hotel booking platform in React, Node.js, Express, and MongoDB.
- Designed end-to-end Figma interactive prototypes, simplifying guest reservation flows and administrative inventory management.

English Language Instructor — Kids & Us & English For Kids, Spain
07/2022 – Present

- Taught structured Cambridge exam curricula (A1–C1) with a 100% pass rate; led multi-level parent and administrative reporting.

EDUCATION & CERTIFICATIONS

- Meta — React Native Specialization Certificate (2025)
- Barcelona Code School — JavaScript Full-Stack Certificate (2024)
- IBM — Full-Stack Software Developer Professional Certificate (2024)
- Universidad de Navarra / Univ. of Twente — International Business Administration Studies (2019 – 2023)
